## PROFESSIONAL SUMMARY

Software Developer with experience in designing, developing, and implementing high-quality software solutions. Strong skills in OOP, web development, database technologies, and debugging. Excellent communicator with proven problem-solving abilities and a passion for learning modern technologies.

## SKILLS

**Programming :** Java, C, C++, JavaScript
**Databases :** SQL, MySQL, Firebase, DBMS
**Web Development :** HTML expertise, CSS, JavaScript, Tailwind CSS
**Frameworks & Technologies** ReactJS, Spring MVC, Hibernate (Java), Thymeleaf
**Technical Skills :** Software debugging, Version Control (Git), API Integration
**Soft Skills :** Multitasking, Problem-solving abilities, Team Collaboration, Time Management, Communication Skills, Fast Learner, sincere and hard working

## WORK EXPERIENCE

**Full Stack Java Developer** — Nov '24 — Jan '25
INTERN Infosys Springboard — India (Remote)

- Developed a Java-based parking management application using Spring Boot and Spring JPA for real-time slot availability.
- Implemented REST APIs for parking slot booking, user authentication, and admin management features.
- Designed a user-friendly interface with role-based access control (Admin/User roles).
- Enhanced code quality and reliability through comprehensive testing and collaborative code reviews.

## PROJECTS

**Quick Park Assist**, Infosys Springboard Link — Nov '24 — Jan '25

- Developed a Java-based parking management app using Spring JPA for real-time slot availability.
- Designed a user-friendly interface for seamless navigation and data handling.
- Added role-based access control to manage different user permissions efficiently.
- Collaborated with a team to enhance code quality, testing, and project efficiency.

**Portfolio Generator** Link — Nov '24 — Dec '24

- Built a React.js application that dynamically generates personalized portfolios from user input
- Integrated Firebase for user authentication, data storage, and unique shareable URL generation
- Implemented responsive design ensuring accessibility across all devices (mobile, tablet, desktop)

**Digital Document Locker** Link — Sep '23 — Oct '23

- Developed a secure document management system using ASP.NET Core and SQL Server
- Implemented user authentication, password-protected PDF storage, and role-based file access.
- Built Java backend integration for document processing and secure file operations.

## EDUCATION

**PG-DAC (Post Graduate Diploma) in Advanced Computing**, CDAC IET, Pune — Aug '25 — Present, Pune, India

- Building strong expertise in industry-focused computing concepts, problem-solving, and real-world software engineering.

**B.Tech in Information Technology**, M S Bidve Engineering College, Affiliated to Dr. Babasaheb Ambedkar Technological University Loner — Dec '21 — Jul '25, Latur, India

- Pursued a Bachelor's degree in Information Technology, gaining a strong foundation in core engineering principles
- Developed practical skills through hands-on projects and coursework.

## CERTIFICATIONS

**Infosys Springboard Internship Certificate**, Infosys Springboard — Mar '25

**Java foundation certification**, Infosys Springboard — Aug '24

**Software Engineering and Agile software development**, Infosys Springboard — Aug '24

**Data Structures and Problem Solving Bootcamp**, Coffeee — Dec '22
