SUMMARY

Highly motivated software engineer and software developer with experience in developing and implementing software solutions.
Proven expertise in developing, testing and debugging high performing software solutions with a keen eye for detail.
Skilled in object-oriented programming, web development and database technologies.
Excellent problem-solving and communication skills and demonstrates a passion for learning and implementing new technologies.

SKILLS

Programming : Java, C, C++, JavaScript
Databases : SQL, MySQL, Firebase, Database Normalization, DBMS
Web Development : HTML expertise, CSS, JavaScript, React, Tailwind CSS, Thymeleaf
Technical Skills : Software debugging, Version Control (Git), API Integration, Data Structures & Algorithms, Computer Science
Soft Skills : Multitasking, Problem-solving abilities, Team Collaboration, Adaptability, Time Management, Communication Skills, Fast Learner, sincere and hard working

WORK EXPERIENCE

Full Stack Java Developer Nov '24 — Present
INTERN Infosys Springboard Latur, India
- Developing a Java-based application to assist users in finding and managing parking spaces efficiently.
- The project involves using **Spring JPA** to access available parking slots, designing a **user-friendly interface** for navigation, and managing **real-time parking data**.
- Collaborating with a team to ensure robust design, coding, and testing processes while adhering to project timelines and quality standards.
- The project aims to improve user experience by offering a seamless, efficient solution for parking management in busy urban areas.

PROJECTS

Portfolio Generator Link Nov '24 — Dec '24
- Developed a React.js web app that generates personalized portfolios based on user input.
- Integrated Firebase to store user data, assign unique IDs, and provide shareable portfolio URLs.

Snake Game Link Feb '24 — Mar '24
- Developed an interactive Snake Game using HTML, CSS, and JavaScript, playable on laptops and desktops.
- The game features smooth controls and a score tracking system that stores the highest score achieved by the user.
- Designed to provide an engaging and responsive gaming experience.

Digital Document Locker Link Sep '23 — Oct '23
- Developed a secure ASP.NET application with SQL Server and Java for backend integration.
- The application enables user registration, storage of secure and unsecured PDF files, and profile password protection for viewing, downloading, and deleting secured files.
- Includes robust functionality to manage documents efficiently and securely.

EDUCATION

B.Tech in Information Technology, M S Bidve Engineering College, Affiliated to Dr. Babasaheb Dec '21 — Present
Ambedkar Technological University Loner Latur, India
- Currently pursuing a Bachelor's degree in Information Technology, gaining a strong foundation in core engineering principles.

CERTIFICATIONS

Java foundation certification, Infosys Springboard Aug '24

Programming using Java, Infosys Springboard Aug '24

Software Engineering and Agile software development, Infosys Springboard Aug '24

Data Structures and Problem Solving Bootcamp, Coffeee Aug '24
